

**Brief CURRICULUM VITAE:****DAVID N. SUTANTO**

David Sutanto was born in Jakarta, Indonesia, on 27<sup>th</sup> January 1951. He holds a degree in Industrial Engineering from the University of New South Wales in Sydney, Australia. Prior to his university study, he attended high schools in Sydney, Australia and Jakarta, Indonesia.

He started his career as a professional engineer in 1995 with James Hardie Ltd, one of Australia's long established blue-chip companies. After leaving James Hardie, he joined Comalco Products Pty. Ltd in Sydney as an area industrial engineer, and later he joined Carrier International Corporation, which took him back to Jakarta, and gave him management exposure in their operations in Singapore, Malaysia and Indonesia.

With several partners in the early 1980s, he helped established a specialty chemical distribution company in Jakarta, and later a dry-cleaning service provider and franchise developer. Shortly after that, he joined a hotel development company, PT Suryaraya Idaman, of which he became a director. He later became a vice president-director of a leading property development company in Jakarta.

His current position is President Director of PT Wisma Keiai Indonesia, which owns and manages a prime commercial office building on Jl. Jend. Sudirman, in the central business district of Jakarta.

He has been actively involved in the Indonesia-Australia Business Council (IABC) since its establishment, and also in the Australian Alumni Assosiation in Indonesia (Ikama). He also serves in KADIN Committee on Australia and New Zealand.

He is married with 2 daughters. His wife is also an Australian alumni and both his daughters are currently studying in Australia.
