

INDONESIA AUSTRALIA BUSINESS CONFERENCE
5-7 November 2017
Surabaya

Making it Happen

The IA-CEPA has been all-but finalized, and is almost ready to be signed. One final round of negotiations is to take place. The agreement is intended to enhance the Indonesia-Australia relationship, which of course is bigger than any particular agreement. But this agreement, and the atmosphere of cooperation which it has developed, will significantly enhance that relationship.

We must make it happen.

And we take a general look across the board at the economic and political forces shaping our future and discuss how they are looking.
