

INDONESIA AUSTRALIA BUSINESS CONFERENCE

CONFERENCE 4.0

The conference about our future – are we ‘smart’ enough

The Indonesia Australia Business Council is hosting its biennial Business Conference on 3-5 November this year (Sunday to Tuesday) in beautiful Bali. And this is our 30th year – a special conference in a special year.

The face of business is changing fast. The local branch of our bank used to be a focal point. Now you are lucky to find someone in the branch if you can find the branch. We don't pretend we are brainier than Luca Pacioli, friend of Leonardo da Vinci, who codified double entry bookkeeping for the world in 1494 (not forgetting that the Koreans had their own similar system at the time). But now we have to adapt to faster-moving change and learn new 'codes'. That is what being 'smart' means. We will look at what this means for some selected business activities.

Program

After a Sunday evening opening, over the next two days the conference will look at political and economic trends, hear from businesses dealing with these trends, and hear from government leaders vitally interested in trade and investment issues. We will consider how the IA-CEPA can help us grow and grow smarter, whatever our business.

The Ministers responsible for trade and investment in both Australia and Indonesia are invited to attend.

BALI, 3 – 5 NOVEMBER 2019
PUT THE DATES IN YOUR DIARY!
